

Business Services and Offerings

At The Bricks Collaborative, we are dedicated to empowering food entrepreneurs and small business owners with the tools, insights, and support they need to thrive. Our consulting services and workshops are designed to address key areas of business development, community engagement, and operational excellence.

General Consulting - \$150/hour

Our general consulting services offer personalized guidance tailored to your business needs. Whether you need help streamlining your operations, enhancing customer experience, or developing growth strategies, our experts are here to provide the advice and support necessary to elevate your business.

Customized Services- (Prices vary)

Our community-building workshops are designed to help you establish meaningful connections with corporate partners and stakeholders, fostering collaborations that drive growth and community impact. These workshops include:

- Strategies for Building Collaborations

Learn practical approaches to engage with corporate parties and stakeholders, enhancing your ability to create impactful partnerships that benefit your business and the community.

- Community Engagement Strategies

Discover effective ways to engage your community, build brand loyalty, and create a lasting presence through outreach initiatives that resonate with your target audience.

Book a free 30 min discovery call to help us understand your business needs!

SOP System Development Workshops- \$350 (3 hour Session)

Establishing Standard Operating Procedures (SOPs) is crucial for consistent operations and long-term success. Our workshops will guide you through developing SOPs tailored to your business, ensuring your operations are efficient, scalable, and aligned with your business goals. Essential for food entrepreneurs desiring to add new team members or remove themselves from the day to day operations.
